

Bar lines

Bar lines are there to keep the right number of beats in each bar.
They are a bit like fences on a farm.

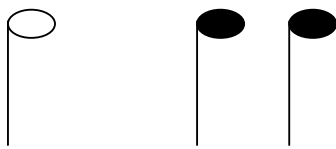

In 4/4 time, there need to be four beats in each bar.

<div style="display: flex; align-items: center;"> <div style="margin-right: 10px;"> <div style="border-left: 1px solid black; height: 40px; position: relative;"> 4 4 </div> </div> <div>  </div> </div>	<div style="display: flex; align-items: center;"> <div style="margin-right: 10px;"> <div style="border-left: 1px solid black; height: 40px; position: relative;"> 4 4 </div> </div> <div>  </div> </div>
$1 + 1 + 1 + 1 = 4$	$1 + 1 + 1 + 1 = 4$

The next kind of note is worth two beats; there are only two of these notes in each bar of 4/4.

<div style="display: flex; align-items: center;"> <div style="margin-right: 10px;"> <div style="border-left: 1px solid black; height: 40px; position: relative;"> 4 4 </div> </div> <div>  </div> </div>	<div style="display: flex; align-items: center;"> <div style="margin-right: 10px;"> <div style="border-left: 1px solid black; height: 40px; position: relative;"> 4 4 </div> </div> <div>  </div> </div>
$2 + 2 = 4$	$2 + 2 = 4$

Sometimes bars can have a mix of two beat and one beat notes.

<div style="display: flex; align-items: center;"> <div style="margin-right: 10px;"> <div style="border-left: 1px solid black; height: 40px; position: relative;"> 4 4 </div> </div> <div>  </div> </div>	<div style="display: flex; align-items: center;"> <div style="margin-right: 10px;"> <div style="border-left: 1px solid black; height: 40px; position: relative;"> 4 4 </div> </div> <div>  </div> </div>
$2 + 1 + 1 = 4$	$2 + 1 + 1 = 4$

Your task: $1+1+1+1=$ $2+2=$ $2+1+1=$ $1+1+2=$
(write your answers in the boxes)
