THOR-B12RGREEI	THOR B12 GREENBOARD Designed specifically for Australian Power conditions, the THOR Greenboard offers high level power filtration to protect any attached devices from power issues, and allows you to switch off upto 4 attached devices with the push of one "big green" button (to save power usage in stand-by). Incoming power is internally filtered to offer cleaner power to your devices which can help in longevity of products. * Thor offers a first 6 year replacement offer for this greenboard in the event it is damaged from electrical spikes. * Thor also offers limited insurance coverage to attached devices in the event the fully-working greenboard does not protected attached devices. (see details in pack)	1.00	181.82	200.00	200.00
