***Subject:*** Int. Video Output or Not Turning On

***Model:*** DVD-S520/S5450

## ***SUBJECT***

Change of resistor(R3256- 680Ohm) value in power supply to correct above fault

## ***PURPOSE***

To ensure -5V startup

## ***This SERVICE is applied to when:***

Apply when the above fault is observed

.

SCHEMATIC DIAGRAM

POWER (B, G)

The first digit of a component indicates the component type.

1XXX : Connector    4XXX : SMD jumper    7XXX : Transistor, FET, IC

2XXX : Capacitor    5XXX : Coil

3XXX : Resistor    6XXX : Diode
