## There's Only One Way to Rock

### AES620 SH Sammy Hagar Signature Guitar

With the help of Yamaha's guitar custom shop, Sammy Hagar has created a signature guitar based on the award-winning AES620 mixed in with a bit of the Red Rocker's own touches. The AES620 SH features a mahogany set neck and body with a figured maple veneer top, powered by two humbucking pickups, including a Seymour Duncan JB. The fingerboard is enhanced with the world-famous Cabo Wabo inlay.

### AES Series

Building on the success of the award-winning AES620, Yamaha offers three new models. The AES620HB features a chambered body and Yamaha's original "F" hole design. The AES620L provides the same great AES620 features to left-handed players. The AES520D6 delivers Yamaha's Drop6 scale length offering a low, dropped-tuned punch while maintaining the proper string tension.

## Hard Edge Design

### RGX Double-Cutaways

The new RGX520FZ and RGX320FZ are Yamaha's first true double-cutaway set-neck guitars. The RGX320FZ features a carved top with body binding, a mahogany neck with a bound rosewood fingerboard, 3-D headstock design, two Yamaha humbucking pickups, and chrome hardware with Yamaha's signature tailpieces. The RGX520FZ upgrades to a gorgeous figured maple top on a solid mahogany body, a custom inlay at the 12th fret, and beautiful translucent finishes.

### SA503 TVL Troy Van Leeuwen Signature Guitar

Queens of the Stone Age guitarist Troy van Leeuwen has navigated his way through a variety of musical genres. His new signature guitar, SA503 TVL, is a semi-hollow body guitar constructed of maple with a set-in maple neck, bound rosewood fingerboard, three soapbar-style single-coil pickups, and custom "all access" multi-function switching systems with dual 3-way selectors. The Bigsby tremolo adds to the vintage feel.

## Contemporary Classic

AE500 and SA500

The AE500 utilizes the tradition of Yamaha's AES1500 but adds a modern twist with Yamaha's signature tailpieces, original "F" hole design, and contemporary finishes creating a unique blend of classic tradition and modern invention.

The SA500 maintains the tradition of the Yamaha's SA2200 while adding its own unique spin with Yamaha's signature tailpieces and original "F" hole design. Both are available in Black and Brown Sunburst finishes.

# A New Generation

## FG Series Acoustic Guitars

Generations of professional and amateur musicians remember—and still use—their first Yamaha FG. Now, Yamaha has found a way to apply innovative techniques developed for its high-end L-Series handcrafted models to improve tone and playability while maintaining outstanding value. The result: 15 exciting new FG guitars.

Each new model features an inverted L-block which creates a deeper low end and a tighter body-neck connection. Additionally, solid spruce tops, die-cast chrome hardware, and unique non-scalloped bracing help these new FG guitars build on the longevity and legendary status of the originals.
